Premium Cast Aluminium Cookware

 Westinghouse

PERFORMANCE SERIES

Premium Cast Aluminium Cookware

At **Westinghouse Homeware**, we are very serious about cooking. We want nothing more than to create the perfect cookware for the average cook.

With this in mind, we have designed high-performance cookware with premium quality. We dedicate to use fantastic materials to make our cookware from day one. Explore our Performance Series now!

PERFORMANCE SERIES

EXCELLENT NON-STICK PERFORMANCE

Our multi layered, waterborne coating QuanTanium by PPG has outstanding durability and has been designed to avoid PFOA and other harmful chemical substances. The coating is also more durable than conventionally reinforced coating systems due to our incorporation of titanium particles in multiple layers. This non-stick coating is well known for its scratch resistance and stands up to almost anything.

Thanks to our unique non-stick coating, cleaning your cookware couldn't be easier. The Performance Series cookware gets along with the dishwasher too and the colour and quality will remain.

**Premium
non-stick**

Light weight

LIGHTWEIGHT & EXCELLENT HEAT CONDUCTION

The **Performance Series** is made from cast aluminium. Cast aluminium heats three times faster than cast iron and weighs 50% less!

You might think the heavier the better when it comes to quality - but that isn't the case at all. The density of aluminium makes this material super light while being extremely strong. Lightweight cookware provides easy handling, which has a lot of advantages during cooking. You can easily flip your potatoes in the frying pan or move your casserole to the table. And due to cast aluminium powerful conductive properties, your food can be cooked faster than ever.

PERFORMANCE SERIES

SUITABLE FOR ALL STOVES

Versatility is key. Whether you are planning to cook on gas, induction, ceramic, or you're placing your pan in the oven (up to 230°C) we've got you covered. Being able to set your casserole dish right on the table without having to transfer the food to a serving platter will make your cooking routine a lot easier. Less work and less dishes means more fun.

INDUCTION

CERAMIC

HALOGEN

ELECTRIC

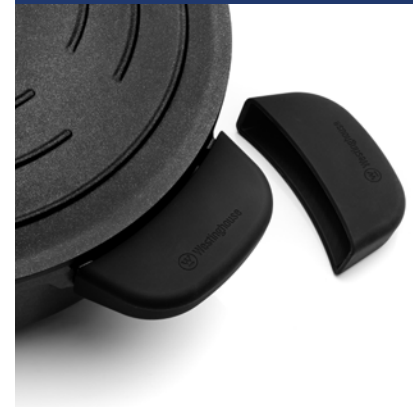

GAS

OVEN SAFE

On top of this, you don't need to use your kitchen towels anymore, as the Performance Cookware includes silicone handle covers so you won't burn your hands. The fry pan, grill pan, wok and saucepan are also equipped with stainless steel cool-touch handles.

Blasting lid

DRIP MECHANISM LOCKS NUTRIENTS AND FLAVOUR

Cookware produces steam while cooking which condenses on the inside of the flat lid and drops evenly on to the food as it runs down the spikes.

This basting system creates a continuous flavour rain which ensures that your food will be more succulent and flavourful than ever. Due to this feature, the Performance Cookware can be used as a chicken braiser, mussel steamer, rice cooker, veggie roaster, fondue pan and soup maker.

PERFORMANCE SERIES

UNIQUE DESIGN & 4 COLOUR CHOICES

We offer a unique design in four colour choices, so there's a shade for everyone!

A unique way to present our brand which is built upon a tradition of dependability and innovation.

Rebel Red

This colour radiates romance and passion. Red is also a colour that stimulates the appetite and entices. Get your chef on and dazzle guests with this option.

Bravery Blue

Blue represents elegance and confidence. This colour can be a nice way to add some colour to your kitchen. Our Bravery Blue shade exudes class and looks good on any countertop!

Gracious Green

Green is the colour of life, nature, and kindness. Using green cookware as a color accent in your kitchen will help to calm diners and reference the homely dishes you will be serving.

Blissful Black

Simple. Stylish. Effortless. With this colour choice you absolutely can't go wrong. The black option will match every kitchen and is a great option if you are thinking of buying our cookware as a gift.

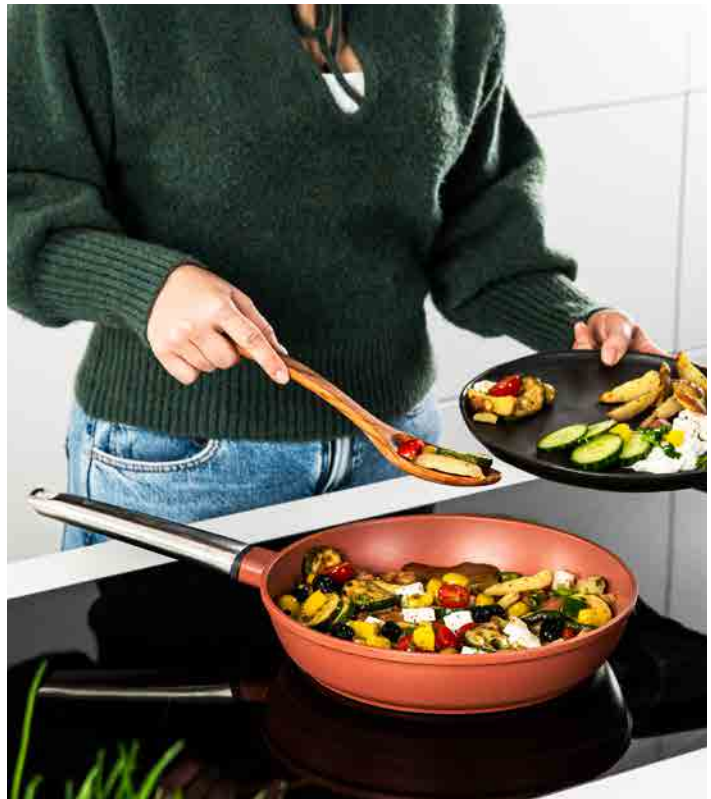

FRY PAN

The long stainless steel cool touch handle, flat bottom and wide sloped edge make it perfect for searing, sautéing and even stir frying.

Recommended:
Searred fish or meat
Fired potatoes
sautéed sautéed
vegetables
Stir fried noodles

GRILL PAN

Square non-stick cooking surface and the waved pattern make grilling and cleaning easy. The ridges channel the grease to the sides, and keep extra fat away from the food so you do not get a steaming effect and oily meal. It allows to get grill marks on your food with great grill lines.

Recommended:
Searing steaks
Grill vegetables
Grilled cheese sandwich
